IMRAN HAKIMI BIN ABU BAKAR

Software Developer · Full-Stack & Mobile

Kuala Lumpur, Malaysia | +60 11 1003 2552 | imrankimi100@gmail.com

SUMMARY

Software Engineering graduate from Universiti Kuala Lumpur Malaysian Institute of Information Technology (UniKL MIIT) with hands on experience developing full-stack web and mobile applications using Flutter, React, ASP.NET MVC, JavaScript, C#, and SQL technologies. Experienced in enterprise system development, REST API integration, dashboard implementation, database management, and production-level UI enhancements within the oil & gas and enterprise sectors. Currently working at Enrise Digital and seeking opportunities as a Software Engineer, Mobile Developer, Full Stack Developer or any related fields

SKILLS

Languages: C#, JavaScript, Dart, PHP, Java, SQL

Frameworks & Libraries: ASP.NET (MVC & Web Forms), React, Flutter, Angular, Bootstrap, JSF/EJB

Databases: SQL Server, MySQL, SQLite, Firebase Firestore

Tools & Practices: Git & GitHub, REST APIs, Swagger, Visual Studio, Android Studio, Figma, Azure

Spoken: Bahasa Melayu (native), English (professional)

WORKING EXPERIENCE

Software Developer | Enrise Digital, Kuala Lumpur **Oct 2025 – Present**

Oil & gas asset-integrity management software (AIMS / Risk-Based Inspection).

Secura System — Risk-Based Inspection Platform

C# · ASP.NET MVC · SQL Server · REST APIs

- Developed and enhanced the Secura risk-based inspection system, improving workflow efficiency and reducing manual processes
- Integrated live API data into dashboards for real-time monitoring of structural and pipeline assets.
- Implemented role-based access control and improved application security for enterprise modules.
- Resolved UI issues across multiple modules, optimized frontend responsiveness, and managed production level user interfaces.
- Supported SQL database operations, generated reports, and collaborated with stakeholders to enhance system functionality.

Enrise Digital Corporate Website

HTML · CSS · JavaScript

- Built the company's official website from scratch using clean, semantic HTML, CSS, and native JavaScript.
- Optimized markup and assets for faster load times and consistent cross-browser rendering.

Optitech Landing Page — Secura Product Demo

Squarespace

- Designed and deployed a conversion-focused landing page on Squarespace for the Optitech product line.
- Configured the page to showcase a live Secura System product demonstration and guide visitors through a marketing funnel.
- Structured content and calls to action to capture leads and drive demo sign-ups.

IT Support (Short-Term Cover) | Mubadala **Dec 2025**

- Maintained production SQL databases (integrity checks, scheduled backups, reporting queries) and supported user-access management during a coverage period.

PROJECTS

Perfect Wave Academy Management System | Final Year Project

React · Bootstrap · Flutter · Dart · Firebase

- Designed and built a full stack swimming academy platform: a React admin panel plus a cross platform Flutter mobile app, backed by Firebase/Firestore.
- Admin panel manages student records, attendance, scheduling, payments, and notifications from a single dashboard.
- Mobile app lets students and coaches book sessions, track progress, and receive real-time updates.

KTM Komuter Online Ticketing System

C# · ASP.NET MVC · SQL Server · LINQ · Bootstrap · SMTP

- Built an online rail-ticketing platform for one way and return purchases, with automated email delivery of tickets and payment confirmations.
- Implemented tiered fare discounts for students, senior citizens, and OKU passengers, with LINQ and SQL Server handling transaction processing and reporting.

Enterprise Bookstore System

Java (JSF, Servlets, EJB, JPA) · JavaDB · CSS

- Developed a multi-tier web application with authentication, registration, catalogue browsing, purchasing, and admin management.
- Used JPA for persistence and EJB for business logic, with server side validation enforced across the stack.

EDUCATION

B. IT (Hons.) in Software Engineering — CGPA 3.57 | UniKL MIIT **Sep 2022 – Feb 2026**

Foundation in Computer Technology — CGPA 3.74 | UniKL MIIT **Aug 2021 – Jul 2022**

Sijil Pelajaran Malaysia | (SPM), SMK Sungai Pusu **2020**

CERTIFICATIONS

- Google Project Management Professional Certificate
- Cisco Networking Academy - IT Essentials (PC Hardware & Software)
